

Contactless Exit Button

The contactless exit button facilitates non-contact door releases for applications where high standards of hygiene are required. Activated by close proximity to the hand, this product is ideal for use in situations where cleanliness is vital to the safety of individuals.

Features

- Illuminated halo, normally red - turns green when activated
- Infrared proximity sensor
- Stainless steel back-plate
- Adjustable proximity range
- Adjustable door open period (0.5-20secs) or toggle mode
- Flush mount
- IP65 Sensor unit

Specification

TDSi Part No.	2921-0265
Dimensions	85mm x 85mm x 25mm
Weight	170g
Operating Environment	-10°C to - 70°C
Input Voltage	DC 12V
Technology	Optical / Infrared
Protection	IP-65 (sensor unit only)
Application	Gate/Door/Exit/Automation Control
Sensor Output	Twin LED indicators for sensor standby or activation

DS0186 - Issue 1
