

Dual Technology Enrolment Reader

The desktop enrolment reader provides an easy to use method of enrolling cards onto your Access Management Software. The reader utilises a USB connection to make it simple to use on the PC, simulating keyboard entry when a card is presented to the reader.

Features & Benefits

Dual Technology

This simplifies card migration data entry with only a single reader. You can select the card technology using Caps Lock.

Simple Data Entry

No need to manually enter a card number, just show the card to the reader.

Simple to Install

This minimises the installation time and cost.

Ordering Information

Part No. 5002-0449

Description: MIFARE CSN and Proximity Desktop Enrolment Reader

Part No. 5002-0447

Description: MIFARE Sector and Proximity Desktop Enrolment Reader

Specification

TDSi Part No.	5002-0449, 5002-0447
Dimensions	107 x 80 x 25mm
Weight	140g
Operating Environment	0°C to + 50°C, 0 to 95% RH (non-condensing)
Power	
Supply	USB
Operating Frequency	125KHz / 13.56MHz
Features	
Card Technology	EM4102 / MIFARE Compatible
Sounder	Integral
LED	Bi-colour (red/green) with independent external control
Reader Range	<80mm with ISO card / <30mm with tag
Output Format	Keyboard simulation

DS0069 - Issue 4
