

EXgarde 4.5

Access Management Software

EXgarde 4.5 is a fully featured Access Management PC software application that combines an extremely intuitive graphical user interface, with powerful integration capabilities. Supporting multiple doors as standard and providing the option to extend this with an unlimited door licence, EXgarde meets the needs of even the largest access control networks. With EXgarde 4.5, integration and expansion are achievable outcomes, providing numerous possibilities to integrate with the latest CCTV and biometric technologies.

Key Features

In-built wizard for common tasks

Guides the operator through key operations, making use of the software.

Configurable, automated database backup facility

Provides peace of mind should things go wrong.

Communication via TCP/IP, dial-up and GSM modems

A high degree of versatility allowing connection across national and international installations.

Context sensitive help system

Assists the operator at the point that help is required.

Automatic fire door release function

Allows the automatic unlocking of fire doors in the event of a fire.

Custom site graphics with animated icons

Instant visibility of information, allowing simple operation of the system.

Advanced prioritised alarm handling

Alarm conditions are brought immediately to the attention of the operator to allow optimum response time.

Personal image capture and photo ID badge design and print with visual verification

No need to purchase a licence, everything is included as standard in PRO.

Integration capability with leading DVR and biometric reader manufacturers

Provides a means of accessing and controlling third-party equipment through EXgarde PRO without the need to run additional applications. DIGIgarde integration included as standard.

IP camera connectivity

A standard feature allowing the display of live video feeds from any IP camera.

Integration to third-party

A means of seamlessly transferring and populating cardholder data and events between the systems. ODBC databases using SDK or predefined protocol, building management, fire and intruder systems.

Ordering Information

Part No. 4420-2110

Description: EXgarde EXpress

Part No. 4420-2080

Description: EXgarde PRO Platform License

Part No. 4420-2111

Description: EXgarde Enterprise

Part No. 4420-2104 / 2100 / 2101

Description: 1, 2 or 4 Additional Workstation

Part No. 4420-2103

1 Additional Tenant

Part No. 4420-2081

Description: Additional 32 doors

Other part numbers available. Contact sales@tdsi.co.uk for more options.
