

Technical Note – TB0023

This Technical Note covers the installation of MICROgarde Software on Windows 7 PC's.

The Issue

When installing on a PC with the Windows 7 Operating System the setup program requires administrators permission to allow the installation to complete correctly.

Important Notes

Please read the notes below before installing on Windows 7

The Solution

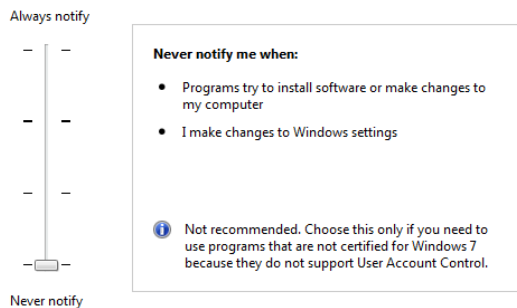

There are two options for installing on Windows 7

Option 1 - *Disable User Account Control (UAC).*

To disable UAC, go to Start and type UAC. You will be presented with the control as shown below. Change the settings to Never Notify.

[Choose when to be notified about changes to your computer](#)

User Account Control helps prevent potentially harmful programs from making changes to your computer.
[Tell me more about User Account Control settings](#)

Reboot the PC to apply the settings.

Option 2 - **Run the setup program as administrator.**

On the setup.exe installation program, right click and select Run as administrator.
