

EXsmart2 K Sector Reader

EXsmart2 Sector Reader with Keypad is a high-performance contactless MIFARE® smart card reader. The EXsmart2 K Sector Reader is designed to be mounted in a standard electrical back-box making for a neat and simple installation. All products are supplied with a choice of covers, allowing the reader's style to be changed to suit its surroundings.

Features

- Mounting into a standard electrical back-box
- Tough plastic clip-on covers in both graphite and light grey.
- Supports the 2 Reader Mode of MICROgarde access control units
- Blue backlit keypad increases security by adding a PIN to your card-based access control.
- Pluggable terminal block cable termination allows the cable to be pre-wired before installation of the reader for convenience.
- A fully encapsulated design provides maximum protection against water ingress making it suitable for mounting both indoors and out.
- Integral LEDs and sounder gives the user unambiguous audible and visual indication of card reads and access status
- Industry-standard outputs

Specification

	EXsmart2 K Sector Reader
TDSi Part Number	5002-0438
