Thinking Software RotaOne Integration

Thinking Software's RotaOne Platform integrates with TDSi's GARDiS Software. This allows RotaOne Time and Attendance Software to use Readers on TDSi's GARDiS (or EXgarde) Access Control Systems as real-time 'In' and 'Out' points for administration of Time and Attendance Events.

The integration allows for RotaOne to link with GARDiS and import data for the administration of Time and Attendance along with Visitor Management within the RotaOne Platform. When connected, RotaOne imports People, Departments, Door Readers and Access Events from the GARDiS Platform and keeps this information up-to-date between platforms with automatic real-time synchronisation.

RotaOne is a powerful Time & Attendance system which is used by small and large businesses to help Workforce Management Solutions with the management of shifts and staff rotas, employee time and attendance, employee holidays, absences and much more!

At a Glance

- Connect TDSi GARDiS Access Control Units to Thinking Software's RotaOne Time & Attendance Platform
- Real-time synchronisation automatically shares data and updates between GARDiS and RotaOne
- Identify Readers on the GARDiS System to use as Real-time 'In' and 'Out' points for Time & Attendance
- Import and display People, Departments, Door Readers and Access Events from GARDiS within RotaOne
- Increase business efficiency by avoiding data duplication

Please Note: This GARDiS Software Integration with Thinking Software's Rota One Platform also requires a subscription to Thinking Software's Rota One Software Platform which is available from Thinking Software directly.

Thinking Software

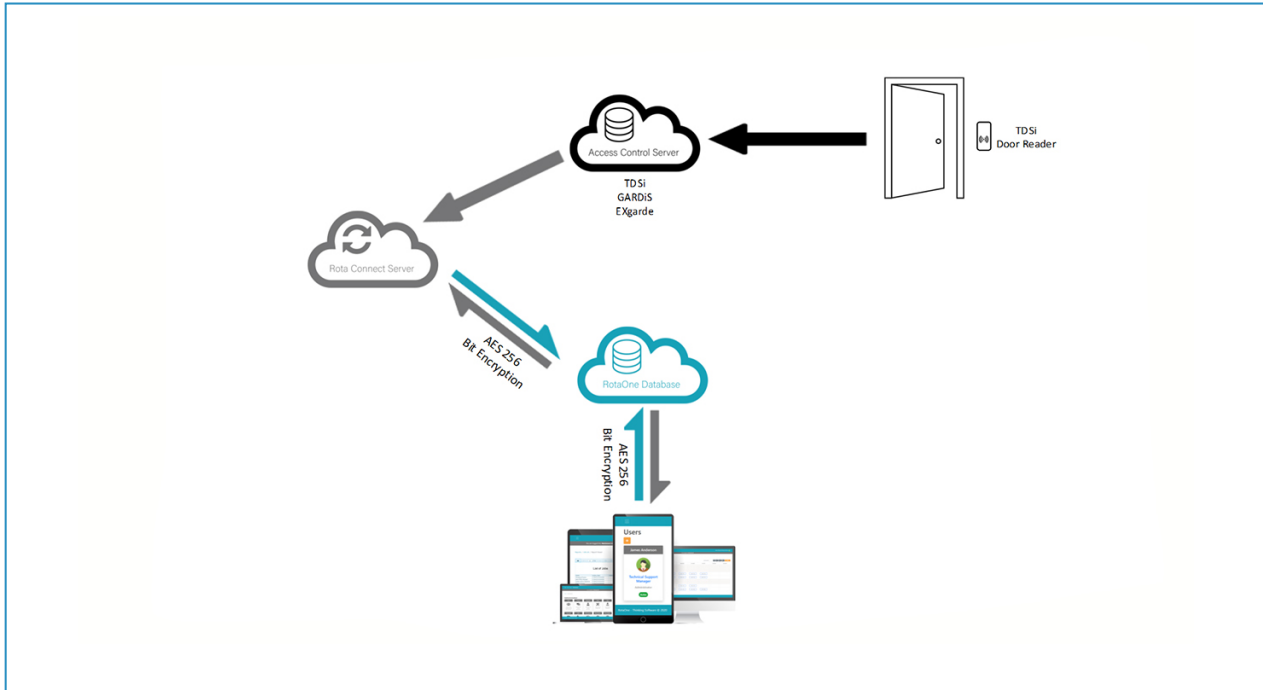

Established in 1994, Thinking Software is a UK-based business, and a pioneer in the field of Time & Attendance and Workforce Management Systems. With decades of experience and expertise, they have been at the forefront of providing innovative solutions to help organisations effectively manage their workforce and optimize their operations.

Over the years, they have built a reputation for delivering cutting-edge solutions that address the needs and challenges of their clients. The Thinking Software team combines industry knowledge and the latest technology to create user-friendly, feature-rich products that meet the evolving demands of the modern workplace. Their comprehensive suite of Time & Attendance and Workforce Management Systems is designed to empower companies of all sizes and industries to streamline their processes, enhance productivity, and drive sustainable growth.

About TDSi

Robust and reliable Access Control Systems manufactured by world-renowned security specialists TDSi for the last 40 years.

Protecting and securing your building, assets, and people is a high priority for any business. However, those responsible for building security often find themselves overwhelmed by choice. TDSi is a specialist in access control, offering a range of superior products that not only answer the security challenges of the 21st century but delivers peace of mind to those who trust in our expertise and experience.
